Dear Parent/Guardian,

You may/may not be aware the Year 6 School Health Questionnaires have now changed from paper copies to electronic copies.

The questionnaire is aimed at supporting your child through the transition progress from primary school into secondary school.

The questionnaire will help your child explore any thoughts and feelings they may have about their move to secondary school, and it is designed to support you with any health concerns you may have regarding your child, support you with weight management, anxiety/mental health support, and support you with any medical conditions and care plans your child may have.

Please follow the link below to complete the questionnaire. It is simple and straight forward to complete. Instructions on how to create an account are at the bottom of the page.
