Inspire Believe Learn

Dear Parent/Carer,

As part of our Geography topic, the children will be visiting the local canal on **Friday 6th November 2026** to investigate the impact of litter on the environment and marine life.

During our visit, the children will become geographers by collecting data from different spots along the canal. They will record the **amount and types of litter** they find in each location. This will allow them to compare their findings and develop a better understanding of how litter can affect local wildlife and the wider environment.

To ensure the children are prepared for our trip, please make sure they come to school with the following:

- **Full school uniform** as usual.
- **A suitable coat**, as we will be outside whatever the weather.
- **A change of shoes** for the visit, preferably wellington boots or another sensible, sturdy alternative, as the ground near the canal may be muddy or wet.

Please ensure that the children have everything they need so that they can take part in the activities comfortably and safely.

Kind regards,
Mr Driscoll
