Inspire Believe Learn

Welcome back and happy New Year! I hope you had a wonderful break and managed to relax.

In Year 5, we are looking forward to a busy term, filled with lots of fun and creative work, if you want to know more about what we are doing in each subject this term have a look at the Spring curriculum map on the Year 5 page. This term I am looking forward to creating an amazing piece of art based off work created in the 'space race' era of the 1950s and 60s using the technique called printmaking. There is also a computing unit I am looking forward to, where we look at how computers communicate data from the Mars rover as well as looking at how computers use binary.

This term, Year 5 have also several activities, which are lots of fun and a nice change to the curriculum. Firstly, the Bikeability Trust team will be coming in to teach the class how to safely ride their bikes on the roads. After that the children will partake in swimming lessons, learning different swimming strokes.

I would also like to thank you all for your support with helping the children learn their spellings weekly. I hope we can continue this support with the new set of spelling, which have been sent home.

If there are any issues your child faces throughout this term, then please encourage them to come speak to me first, so we can find a solution as soon as possible. If the issue persists then please come in and see me as we can discuss the issue. Should the issue still occur then you can go speak to Mrs Statham.

Thank you for your support,

Mr Driscoll.
