

DESIGN AND TECHNOLOGY

Ask an adult to help you recreate your favourite meal.

With an adult make some biscuits and cakes with an adult for a treat.

Can you make some Bread?

What about making Pizza dough and putting on your favourite topping. Always do these activities with an adult.

Can you write the instructions?

DESIGN AND TECHNOLOGY

Can you make your favourite animal out of household junk? 1. Design your favourite animal on paper. 2. Decide which materials you are going to use and make a list. You might use a cereal box, toilet roll tubes or an egg box. 3. Make your animal! Challenge: Is your animal a mammal, amphibian, reptile, fish or bird? Is your animal a herbivore, omnivore or carnivore? Write sentences to explain.

Design your own musical instrument
Make an instrument out of things around your house.

DESIGN AND TECHNOLOGY

Guatemalan Worry Dolls

Using scraps of material, pieces of wood, pegs, thread, wool or pipe cleaners, why not make some worry dolls of your own?

- Find out about the legend of the worry doll.
- Give them names and personalities.
- Make up stories and use them as puppets.

Tell them your worries at night and put them under your pillow, by morning you will feel better about your problem!

ART

Molas from Panama

Make paper Molas or use fabric and a sewing machine if you have one!

Or simply use the idea to inspire a painting or colouring.

Let your imagination lead the way!

ART

Trees that are popular in the UK, such as maple

and magnolia are also popular in Japan. Cherry blossoms are out now and can provide great inspiration for your artwork. Use black ink or paint and blow it up the page to make the branches of the tree. Make the blossoms with pink and white paint or tissue paper.

ART

Japanese Anime

Follow these links to find out how to draw in the style of Japanese anime, or learn how to draw Pikachu or Bulbasaur!

<https://www.youtube.com/watch?v=3QpeWdL6dNM>

GEOGRAPHY

Go for a walk near your home with your grown-ups.
Can you draw a map of your walk? Try to include: 1. Your house 2. Your road 3. A human feature e.g. a shop, a post box 4. A physical feature e.g. a stream, some trees

Make a model of the UK out of play dough and put markers of places you have visited, rivers and mountains.

Draw a map of the world and research different features and animals.

Go on a nature hunt near your house, perhaps you could write down the things you can find and tick them off!

Can you make a mini beast fact file!

MUSIC

Listen to different types of music

How do they make you feel?
What instruments can you hear?
Do you like it? Why?

HISTORY

Research hieroglyphics
Can you make your own up for the letters of the alphabet?
Can you write your name?

Research a period in history using the internet, ask a grown up or a book.
Present the information in a

- Power point
- A storyboard
- A collage
- A video

PE

How many?
You will need: a 1 minute timer, some space, and some energy! In one minute, how many of these can you do? · Star jumps · High knees · Pencil jumps · Press ups
Challenge: Can you have a another go and beat your first attempt?
Create an obstacle course in your garden
More activities at Go Noodle <https://www.gonoodle.com/>

RE

What is Ramadan? You could have a look in a book, ask a family member or have a look on the internet.

Task 1: Write down some facts that you have learnt about Ramadan

Task 2: Have a go at making a paper plate moon and star.

PSHE

See well being ideas on our website

Draw a poster of what makes a good friend.

MENTAL MATHS

Practice your time tables

Practise counting backwards and forwards from a given number.

Target 50 (or change number to suit level)

Draw a spider with a total in the centre. How many different ways can you make this total?

Magic Square - draw magic square (3 x 3) with the number 5 in the middle. Put the numbers 1-9 in the square and make sure every row / column etc adds up to 15

ICT

<https://scratch.mit.edu/>

Have fun coding and making your own animation at this website!

Maths

Make a pretend shop in your house and label some objects in your shop with prices. Use 'real life' coins to pay for the items!

Can you make the amount in a different way?

Can you add two or three items together?

Can you work out the change from different amounts?

Can you help to make a shopping list and help to budget?

SCIENCE - Only do this with adults

<https://www.sciencekids.co.nz/experiments.html>

<http://www.sciencefun.org/kidszone/experiments/>

Make your own lava lamp Fill a plastic bottle up 1 quarter full with water. Pour vegetable oil in the bottle until it is almost full..Add a few drops of your favourite food colouring. Watch as the colour sinks through the oil. Did your drops of colour mix with the water immediately or float in between for a few minutes? With an adult break your fizzy tablet in half and drop part of it into the bottle. Get ready ... here come the bubbly blobs!
