## **Narrative**

Very pleasing results overall with many whole school results higher than last year

Children feeling safe in school and learning something new is very high at 99% and 96%

Nearly half the children thought that there should be more playtime activities.

Upper KS2 have the most concerns regarding playground equipment/activities – this is something that the School Council can address this year

KS1 already have a new set of playtime equipment this year from the Asda monies which they are enjoying.

The 19% in Year 5 for behaviour needs to be explored and discussed with the children as it seems to be an anomaly. There are no serious behaviour issues with this cohort from a staff perspective.

The 28% for children visiting the Green Room is above the school PPG % which is good. The Inclusion team can monitor this again this year. The Green Room is there for when children need it.

## **A Variety of Comments from the children:**
